Chief, D/A/RR

Studies Coordination Working Group, of EDAC

It is proposed that the Studies Coordination Working Group, of EDAC, coordinate and digest for the Steering Group the existing and future studies dealing with the decreasing reliance of the West upon the East. There is also some support in the Steering Group for a proposal that it "coordinate" all studies in the field of economic defense!

This working group will presumably analyze NIE-59 if and when that estimate sees the light of day. The section dealing with non-Orbit countries is being prepared by State Department and MSA, which are represented on the Studies Coordination Working Group.
